

WEATHER ARRIVAL PROCEDURES

If it is exceptionally cold, raining or snowing heavily, students can enter the building as early as 8:15 am. For students who arrive by car, the following procedures should be followed.

Entering vehicles must stay to the right and not enter the exit roadway, which is one-way.

Vehicles may park under the pine trees opposite the basketball court.

All other vehicles must follow the line of traffic, staying inside the traffic cones, into the circle in front of the school.

VEHICLES INSIDE THE CONES CANNOT GO LEFT AT THE CROSSWALK DUE TO VEHICLES EXITING THE CIRCLE.

PLEASE do not drop children off before entering the circle.

Children should exit vehicles in the circle from the right [curb] side of the car.

HOW WILL PARENTS KNOW IT IS A WEATHER ARRIVAL?

If the school knows well in advance, an e-mail will be sent using the all-parent e-mail system.

Weather arrival procedures will also be indicated by a flashing orange light [see map on reverse] and a series of red flags placed inside the traffic cones.

Please make sure that all family members and caretakers are aware of these procedures.

Thank you!
